

Value Line Small Cap Opportunities Fund Tops \$500 Million in Assets

Asset Growth of Fund Fueled by Advisors and Market Rally

New York, NY (April 26, 2017) – Value Line Funds, a mutual fund company with equity, hybrid and alternative funds with assets of over \$2.3 billion, announced that the Value Line Small Cap Opportunities Fund has surpassed \$500 million in assets.

Often, investing in small cap stocks exposes investors to greater volatility in their portfolio. However, as of March 31, 2017, the Value Line Small Cap Opportunities Fund was the only fund in Morningstar's Small Growth category to receive an "Above Average" Return Rating with a "Low" Risk Rating for each of the 3-, 5- and 10-year periods, out of 386 funds.

"We believe advisors and investors have sought out the Fund due to its attractive risk and reward characteristics," said Mitchell Appel, President of Value Line Funds. "When it comes to small-cap growth investing, we believe investors don't have to accept more risk to receive more return."

The Value Line Small Cap Opportunities Fund was launched in 1993 and has been managed by veteran Portfolio Manager Stephen Grant since 1998. The Fund primarily invests in small-cap growth companies with consistent track records of growth in both earnings and stock price over the long term, preferably eight to ten years or more.

"Another important aspect to consider when investing in small-cap funds is capacity," said Marketing Director, Thomas Sarkany. "While many small-cap funds are capacity constrained and have closed or are at risk of closing to new investors, the Value Line Small Cap Opportunities Fund has ample room for asset growth while maintaining the integrity of our time-tested investment process."

"With a growing array of new investors and advisors purchasing the Fund, passing the \$500 million milestone during this market rally is even more rewarding when you consider that the Fund's assets were approximately \$375 million a little over a year ago," added Appel.
